

The Geographic North Pole

From **7/10/2023**
to **7/27/2023**

Ship: **LE COMMANDANT CHARCOT**

From **Longyearbyen, Spitsbergen**
to **Longyearbyen, Spitsbergen**

Flight Paris/Longyearbyen + transfers + flight
Longyearbyen/Paris

Heading for 90 degrees North! **The North Pole** has been a source of inspiration, fascination, and attraction since the dawn of time. This impossible and mythical 'elsewhere' begs to be admired.

What if **Le Commandant Charcot** achieved this absolute pinnacle adventure, by enabling you, perhaps, to tread on this virtually unattainable point?

Following **in the footsteps of the explorers** who once tried to approach these elusive parts, where the infinite ice floes unfold and **700 kilometres (435 miles) from any land**, you are part of the chosen few to attempt the odyssey.

You will sail at the edges of the Earth, where the landscapes change constantly depending on the ice and the plays of light. Nature reigns supreme here, sheltering **abundant wildlife**: polar bears, seals or even whales will be your hosts. Your discovery of this silent world, frozen by the cold, will continue as you attempt to reach the Grail of all polar explorers: the North Pole!

Swept by the winds and the currents, the ice floe is constantly drifting and the master of your ship will have to manoeuvre carefully and with great humility in **an attempt to reach the northernmost point of our planet**.

On your return towards **splendid Spitsbergen**, you will enjoy a few days discovering the most beautiful fjords and glaciers of this island possessing surprising beauty. The icy landscapes of the Nordvest-Spitsbergen National Park, former home to whalers, welcome the emblematic fauna of the Far North: walruses, Arctic foxes and the famous polar bears.

[Find out more about the world of Le Commandant Charcot here!](#)

We are privileged guests in these extreme lands where we are at the mercy of weather and ice conditions. Our navigation, mostly in the fjords, will be determined by the type of ice we come across; as the coastal ice must be preserved, we will take this into account from day to day in our itineraries. The sailing programme, outings, activities and observation of fauna cannot be guaranteed and are subject to weather and ice conditions. The experiences are unique and vary from day to day and for each departure. The Captain and the Expedition Leader will make every effort to ensure that your experience is as rich as possible, while respecting safety instructions and regulations imposed by the AECO.

The Geographic North Pole

YOUR STOPOVERS :

LONGYEARBYEN, SPITSBERGEN

Embarkation 7/10/2023 from 4:00 PM to 5:00 PM

Departure 7/10/2023 at 6:00 PM

Longyearbyen is the capital of the Norwegian **Svalbard** archipelago, located on **Svalbard's** main island, and is the northernmost territorial capital on the planet. With winter temperatures dropping to below 40°C, the landscapes of this mining town are simply breathtaking. The glaciers, the mountains stretching as far as the eye can see and the untouched nature, make you feel like you're in completely unexplored territory.

AT SEA ALONG SPITSBERGEN

Arrival 7/11/2023

Departure 7/11/2023

The largest island in the Svalbard archipelago, its name meaning "pointed mountains" in German, **Spitsbergen** is the last piece of land before the Arctic ice floe. Aboard your ship, you will sail along the extremely spectacular coastline of this icy land. Between **millennial glaciers** and **rugged mountains**, you will discover a **jagged coastline, hollowed-out by fjords**. A unique setting, the refuge of a particularly rich avifauna, offering you the possibility of taking fabulous photographs from the deck of your ship.

SAILING ICE FLOES

Arrival 7/12/2023

Departure 7/16/2023

Enjoy the absolutely unique experience of sailing to the heart of the **ice floe**, this **vast expanse of virgin, immaculate ice**. The landscapes are constantly changing, shifting from a smooth, flat wilderness to a chaos of ice, then to channels of open water. Your ship will sail along these naturally open channels and through the areas where the frozen layer is thinnest, offering you the chance to experience magic maritime moments in the midst of drifting sea ice. It will also often be an opportunity to see a particular kind of fauna, totally dependent on the ice floe.

GEOGRAPHIC NORTH POLE

Arrival 7/17/2023

Departure 7/17/2023

Defined by a 90° North latitude, the Geographic North Pole lies on the Earth's rotational axis, at the intersection of all meridians. Plunged into darkness for six months of the year, then lit by the sun for the following six months, this **mythical site, permanently covered in ice** and remote from any land, has fascinated generations of explorers. So far, only a very few people have ever reached it: an exploit which is now accessible to you aboard *Le Commandant Charcot*

SAILING ICE FLOES

Arrival 7/18/2023

Departure 7/22/2023

Enjoy the absolutely unique experience of sailing to the heart of the **ice floe**, this **vast expanse of virgin, immaculate ice**. The landscapes are constantly changing, shifting from a smooth, flat wilderness to a chaos of ice, then to channels of open water. Your ship will sail along these naturally open channels and through the areas where the frozen layer is thinnest, offering you the chance to experience magic maritime moments in the midst of drifting sea ice. It will also often be an opportunity to see a particular kind of fauna, totally dependent on the ice floe.

AT SEA ALONG SPITSBERGEN

Arrival 7/23/2023

Departure 7/23/2023

The largest island in the Svalbard archipelago, its name meaning “pointed mountains” in German, **Spitsbergen** is the last piece of land before the Arctic ice floe. Aboard your ship, you will sail along the extremely spectacular coastline of this icy land. Between **millennial glaciers** and **rugged mountains**, you will discover a **jagged coastline, hollowed-out by fjords**. A unique setting, the refuge of a particularly rich avifauna, offering you the possibility of taking fabulous photographs from the deck of your ship.

NORDVEST-SPITSBERGEN NATIONAL PARK

Arrival 7/24/2023

Departure 7/26/2023

Like the other protected areas of Svalbard, the Nordvest-Spitsbergen National Park was established in the early 1970s to protect this exceptional environment against the growing interest of the mining industry. Nunataks, glaciers, islands and large bays, **arctic tundra** scattered with moss and lichen in shades of silver and gold... This region will fascinate you with its landscapes and with the **numerous vestiges that bear witness to the history of the men** whale hunters and those involved in the first expeditions to the North Pole who found themselves on these shores from the start of the 17th century. In this pristine environment, you will be able to observe **arctic sterns** or **seals** on the rocks that emerge at low tide.

LONGYEARBYEN, SPITSBERGEN

Arrival 7/27/2023 early morning

Disembarkation 7/27/2023 at 7:00 AM

Longyearbyen is the capital of the Norwegian **Svalbard** archipelago, located on **Svalbard's** main island, and is the northernmost territorial capital on the planet. With winter temperatures dropping to below 40°C, the landscapes of this mining town are simply breathtaking. The glaciers, the mountains stretching as far as the eye can see and the untouched nature, make you feel like you're in completely unexplored territory.
