- 13 Tromsø (NORWAY)
Disembarkation 06/27/2017 at 09h15

YOUR CRUISE

Discover Scandinavia with a brand new Ponant itinerary.

Step aboard the Le Boréal to discover Sweden, Denmark and Norway on this 11-day cruise around the heart of Northern Europe.

A must-visit port of call on your trip is Geiranger, a small Norwegian town located in the Sunnmøre region. In 2005, the Geiranger fjord became a UNESCO World Heritage Site. During your cruise you will discover the Bridal Veil and Seven Sisters, two famous waterfalls with mythical names.

Further north, you will reach the Lofoten Islands. Located north of the Arctic Circle, this archipelago features contrasting landscapes of surreal beauty, alternating between the sea, mountain slopes, fine sandy beaches and wooden fishing cabins.

FOCUS ON... A, LOFOTEN

Way beyond the Arctic Circle, Lofoten Islands are truly considered to be in "another world". A jewel of nature in its most pristine state, this archipelago with its jagged coastline offers you majestic settings of high alpine summits, sandy beaches, green prairies and fjords of a deep blue, where countless bird colonies make their nests. Whether you visit Å, or Nusfjord, listed by UNESCO, enjoy authentic and memorable moments.
