YOUR CRUISE

At the crossroads of two continents, Europe and Africa, PONANT invites you to discover an itinerary rich in discoveries and encounters at the heart of the Cape Verde Islands.

From Praia, considered to be the most African of the islands, you will set sail aboard Le Ponant for an 8-day cruise far from the main maritime routes and crowded tourist destinations.

In particular, you will reach the island of São Nicolau, which will delight you with its pristine mountain landscapes, its picturesque capital, Ribeira Brava, its friendly inhabitants and its lively traditions.

In particular, you will reach the island of Santo Antão, an authentic island that houses the greenest valley on the archipelago, the Paúl Valley. A place to almost tropical vegetation where you can enjoy the serenity of the landscapes.

A gigantic volcanic cone emerging from the Ocean, Fogo or "volcano island" is the most unusual in the archipelago. With scenery of savannah and fields of sugar cane, scattered with peaceful hamlets, Fogo offers you extraordinary panoramas.
