- 15 Guayaquil (Ecuador)
Disembarkation 10/06/2019 at 07h00

YOUR CRUISE

Set sail aboard *Le Soléal* for a **14-day** expedition cruise crossing no fewer than six countries. **PONANT** proposes an all-new circuit discovering the most beautiful sites of Central America, featuring nature parks, idyllic islands and encounters with the local populations.

Before you board the ship in **Puerto Quetzal**, do not miss the chance to visit the impressive and majestic Mayan site of **Tikal**, as well as the wonderful baroque monuments of La Antigua de Guatemala.

When your ship calls at **San Juan del Sur** in Nicaragua, you will travel to **Granada**, at the foot of the **Mombacho volcano**. This town is teeming with architectural treasures, and combines Moorish, Andalusian, Baroque and neo-Classical styles.

After a call at **Puerto Caldera**, from where you can visit the beautiful Poas Volcano National Parc, *Le Soléal* will reach the **Cocos Island**, more than 500 kilometres off the coast of Costa Rica. This idyllic speck of land has an **amazing ecosystem**, housing turtles, manta rays, dolphins and whale sharks.

On the way to Ecuador, *Le Soléal* will stop in the **Pearl Islands**, which nestle in the Gulf of Panama, before sail on to the magnificent **Darien National Park**. This little corner of paradise is a **UNESCO World Heritage** site and home to remarkable plants and wildlife. Sandy beaches, rocky coastlines, mangroves, swamps and tropical rainforests vie with each other for beauty. This will also be the occasion for meeting the astonishing semi-nomadic Emberas community.

The encounters with the wildlife described above illustrate possible experiences only and cannot be guaranteed.
