- 15 Hanga Roa, Easter Island (Chile)
Disembarkation 11/10/2020 at 08h00

YOUR CRUISE

In partnership with National Geographic Expeditions

PONANT invites you to enjoy an unforgettable experience with our team of naturalists, discovering **atypical destinations** in the heart of the Pacific. From Papeete to Hanga Roa, you will sail aboard *Le Boréal* for an exceptional 14-day expedition cruise.

The first stop on this trip: **Rangiroa**, in the Tuamotus. This gigantic atoll with breathtaking **underwater scenery** is most known for the cultivation of its famous **black pearls**.

Far from the major maritime routes, the **Gambier Islands** are one of Polynesia's most unspoiled destinations. Encircled by a large ring of coral, its **multicoloured lagoons** are each more beautiful than the next and will offer you a breathtaking show.

Le Boréal will make a stop in the **small village of Rikitea**, where Saint Michael's Cathedral stands proudly, built entirely of coral and wood.

Clear waters, abundant flora and endemic fauna... you will sail to the **Pitcairn Islands**, an unspoiled subtropical environment whose capital, Adamstown, resembles a charming small village.

Some 3,700 km away from the South American continent, you will reach the intriguing **Easter Island**. You will discover its famous wooden tablets called "Rongorongo" and the **Moai**, or "walking statues", listed as a **UNESCO World Heritage Site**.
